

"At Cardiogenix, our mission is simple...

Keeping You Healthy. Period.

Your health is often not a priority until it is lost. And it is only after a diagnosis or health scare that people spring into action and try to turn things around. We at Cardiogenix ask "Why wait until you're sick?" Together, let us work together to turn things around NOW!

The Cardiogenix concept and philosophy was developed by our medical team, evolving from years of Family Practice and Emergency Medicine. Observing first hand the devastating consequences of heart attack and stroke on patients and their families, and how lives are changed forever - in an instant - led us to conclude that most of this is preventable and that there must be a better way.

Of course, even the healthiest of individuals need medical intervention now and again. Unfortunately, the Quebec health care system in its current state is not equipped to offer immediate response. At Cardiogenix, our patients who choose our 24/7 access plan can reach a member of our medical team in a timely manner, day or night.

We have built our Centre around our mission, focusing on the 5 pillars of great health. Our team of healthcare professionals is committed to helping you to lead a long, strong and happy life. We want you to get excited about your health!

It's precious.
Protect it. Enjoy it.

A full spectrum of healthcare services

Wellness

HEALTH PROTECTION PROGRAMS
Keeping you Healthy...

Through our on-going comprehensive preventive Health Protection Programs, our expert team of doctors, nurses, dietitians, kinesiologists, psychologists and other allied healthcare professionals will provide you with the very best analysis of your health, via advanced blood testing and a myriad of other cutting-edge diagnostic parameters.

We will provide you with the tools, knowledge and inspiration to enable you to optimize your health status and lifestyle in every possible way.

Access

FAMILY DOCTOR 24/7 ACCESS
Providing you peace of mind...

We can provide Family Medicine services to individuals who do not currently have timely access to a Family MD. Our physicians will address all of your routine or chronic health concerns. Our healthcare staff will spend the necessary time to discuss all your medical options with you in a private, relaxed and comfortable setting where you never feel rushed.

Our Family Doctor 24/7 Access program is also designed to address and accommodate all your urgent or unexpected healthcare needs. At Cardiogenix, we strive to keep you healthy and on the go. We know that prevention is better than cure. Still, we realize that in spite of your best efforts, unexpected health problems or concerns may occasionally arise. One of our doctors, trained in Family Medicine and Emergency Medicine, will take your call directly and respond to your concerns. Who better to address your healthcare needs than the dedicated team at Cardiogenix who know you and all the details of your health?

We are never more than a phone call away. We can help.

PROGRAMS: Health Protection, Family Doctor 24/7 Access, Women's Health, LBS Weight Loss, Diabetes Prevention, Cardiac Re-hab, Sports Performance & more!
